### **Citrix Names DynTek as State & Local Government Partner of the Year**

#### *Citrix Recognizes DynTek's Contribution to Application Delivery in State & Local Government Markets*

**FORT LAUDERDALE, Fla. — Mar. 3, 2008** — Citrix Systems, Inc. (Nasdaq: CTXS), the global leader in application delivery infrastructure, today announced that it has awarded DynTek, Inc. with Citrix State & Local Government Partner of the Year Award.

The Citrix State & Local Government Partner of the Year Award recognizes the top industry partner dedicated to bringing application delivery solutions to state and local government customers across the United States. DynTek, a leading provider of professional technology services to government, education and commercial customers, received the award at this year's Citrix Summit, an exclusive, invitation-only, annual event for Citrix business partners worldwide.

"We continue to see demand for Citrix solutions within our government and commercial client base," said Steve Struthers, DynTek's chief technology officer. "As they continue to expand and develop their technologies, we expect to see an even broader adoption of Citrix solutions by our clients this year."

Citrix also noted the strategic importance of DynTek's offices in key locations – including Albany, New York City, New Jersey, Florida, Texas, Colorado and Irvine, Calif. – and the company's impressive list of state and local government references.

"DynTek has demonstrated a high-level focus on application delivery for the state and local government arena, and they were an integral part of one of our largest projects for the year in this market," said Dave Podwojski, director of state and local government and education for Citrix Systems. "Citrix and DynTek are poised to make even greater strides in the coming year."

## **About DynTek**

DynTek (DYNK.PK) is a leading provider of professional technology services to mid-market companies, such as state and local governments, educational institutions and commercial entities in the largest IT markets nationwide. DynTek provides a broad range of IT security, unified communication, virtualization, Microsoft Information Worker, and application infrastructure and delivery solutions. DynTek's multidisciplinary approach allows our clients to turn to a single source for their most critical technology requirements. For more information, visit <http://www.dyntek.com>.
