Ken Young Joins DynTek as Managing Director for the Microsoft Technology Practice

Irvine, CA – June 30, 2008 – DynTek, Inc. (DYNK.PK), a leading provider of professional technology services, today announced Ken Young has joined the company as the Managing Director of the national Microsoft Technology Practice.

As Managing Director, Mr. Young will focus geographical and vertical sales expansion through streamlined solutions, with a focus on Microsoft collaboration, business productivity and next generation web technologies.

“Ken’s extensive experience architecting, selling and delivering Microsoft solutions across a broad range of technologies will make him a valuable catalyst for further growth of this practice on a national basis,” said Steve Struthers, DynTek’s chief technology officer.

In his 15+ years in technology, Mr. Young has worked with many Microsoft development tools and operating systems since their inception. He has architected, developed implemented solutions for Windows environments from the beginnings of Windows NT through Windows XP and Windows Server 2003. Most recently, Mr. Young served as CTO for NuSoft Solutions where he provided overall technical architecture for client business solutions around the country and had direct responsibility for the company’s Advanced Infrastructure Practice area. Mr. Young has held seats on several Microsoft Partner Advisory Councils and has participated in numerous alpha and beta programs. These programs have included Windows Server 2008 on the infrastructure side, and heavy .NET, SharePoint and Web Services integration on the development side. Mr. Young also serves on the Board for NPower, a national network of independent, locally based nonprofits that provides high-quality, unbiased, affordable and appropriate technology assistance to other nonprofits.

“Through their top notch technical team, DynTek has an impressive record of successfully delivering Microsoft solutions, especially in early adopter technologies such as SharePoint and Unified Communications,” said Young. “I am pleased to join the team and look forward to contributing to the double digit growth rate we expect out of our Microsoft practice during the course of this fiscal year.”

About DynTek

DynTek is a leading provider of professional technology services to mid-market companies, such as state and local governments, educational institutions and commercial entities in the largest IT markets nationwide. DynTek provides a broad range of IT security, unified communication, virtualization, Microsoft Information Worker, and application infrastructure and delivery solutions. DynTek’s multidisciplinary approach allows our clients to turn to a single source for their most critical technology requirements. For more information, visit <http://www.dyntek.com>.

Forward Looking Statements

This press release contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. Investors are cautioned that certain statements in this press release are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and involve known and unknown risks, uncertainties and other factors. Such uncertainties and risks include, among others, success in reaching target markets for services and products in a highly competitive market and the ability to maintain existing and attract future customers; our ability to finance and sustain operations, including our ability to comply with the terms of working capital facilities and/or other term indebtedness of DynTek, and to extend such obligations when they become due, or to replace them with alternative financing; our ability to raise equity capital in the future; our ability to achieve profitability despite historical losses from operations; our ability to maintain business relationships with IT product vendors and our ability to procure products as necessary; the size and timing of additional significant orders and their fulfillment; the continuing desire of and available budgets for state and local governments to outsource to private contractors; our ability to successfully identify and integrate acquisitions; the retention of skilled professional staff and certain key executives; the performance of DynTek's government and commercial technology services; the continuation of general economic and business conditions that are conducive to outsourcing of IT services; and such other risks and uncertainties included in our Annual Report on Form 10-K filed on October 29, 2007, our Quarterly Report on Form 10-Q filed on November 19, 2007 and other SEC filings. DynTek has no obligation to publicly revise any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.
