## **DynTek Announces 1-for-1,000 Reverse Stock Split**

**Irvine, CA – November 26, 2008 – DynTek, Inc. (DYNK.PK)**, a leading provider of professional technology services, announced today that its Board of Directors has approved a 1-for-1,000 reverse stock split of its outstanding shares of common stock, which DynTek expects to be effective December 8, 2008.

### **Reverse Stock Split**

At the Annual Meeting of Stockholders held on November 13, 2008, DynTek's stockholders authorized the Board of Directors to effect a reverse stock split of DynTek's outstanding shares of common stock. On November 24, 2008, the Board of Directors approved the reverse stock split at a ratio of 1-for-1,000, which DynTek expects to take effect on December 8, 2008, or as soon thereafter as possible. As a result of the reverse stock split, each stockholder's shares will be automatically converted into one thousandth, or 0.1%, of the number of shares that he or she owned immediately before that date, and the number of shares outstanding will be reduced from approximately 161,746,000 shares to 161,746 shares. However, the reverse stock split will not affect any stockholder's percentage ownership of DynTek's shares, except to the extent that the reverse stock split would result in any stockholder owning a fractional share.

Stockholders that would otherwise be entitled to receive a fractional share as a result of the reverse stock split will, instead, receive a cash payment for the equivalent of \$0.02 per pre-split share, which represents the fair market value of the common stock as determined by the Board of Directors.

Following the reverse stock split, DynTek's common stock will continue to trade on the Pink Sheets and stockholders will receive transmittal letters in the mail to be used to exchange their existing stock certificates for new stock certificates representing the number of shares of common stock into which their shares will be converted as a result of the reverse stock split and any cash payment to which they may be entitled in lieu of any fractional share. However, stockholders should not send in their stock certificates until they receive a transmittal letter, which will contain detailed instructions for exchanging their stock certificates for new stock certificates.

### **About DynTek**

DynTek is a leading provider of professional technology services to mid-market customers, such as state and local governments, educational institutions and commercial entities in the largest IT markets nationwide. DynTek offers technology practices in IT security, advanced network infrastructure, voice over internet protocol ("VOIP"), and access infrastructure. DynTek's multi-disciplinary approach allows its clients to turn to a single source for their most critical technology requirements. **Forward-Looking Statements**

*This press release contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. Investors are cautioned that certain statements in this press release are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and involve known and unknown risks, uncertainties and other factors. Such uncertainties and risks include, among others, the timing of effectiveness of the reverse stock split; success in reaching target markets for services and products in a highly competitive market and the ability to maintain existing and attract future customers; DynTek's ability to finance and sustain operations, including its ability to comply with the terms of working capital facilities and/or other term indebtedness, and to extend such obligations when they become due, or to replace them with alternative financing; DynTek's ability to raise equity capital in the future; DynTek's ability to achieve profitability despite historical losses from operations; DynTek's ability to maintain business relationships with IT product vendors and its ability to procure products as necessary; the size and timing of additional significant orders and their fulfillment; the continuing desire of and available budgets for state and local governments to outsource to private contractors; DynTek's ability to successfully identify and integrate acquisitions; the retention of skilled professional staff and certain key executives; the performance of DynTek's government and commercial technology services; the continuation of general economic and business conditions that are conducive to outsourcing of IT services; and such other risks and uncertainties included in DynTek's Annual Report on Form 10-K filed on October 29, 2007, its Quarterly Report on Form 10-Q filed on November 19, 2007 and other SEC filings. DynTek has no obligation to publicly revise any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.*
